

**DR. SVEN SCHOELLER**  
**OBERBÜRGERMEISTER FÜR KASSEL**  
**KERNTHEMEN**

*Englisch English*

**FRESHER**

With a dialogue- and solution-oriented style of politics that focuses on the interests of our city and unites the different interests of the population, I am standing for office as the new Lord Mayor of Kassel.

**WARMER**

With an independent and climate-neutral energy supply, we will ensure long-term stable prices for heating. We will achieve this by connecting more and more households to the district heating network. An additional heat storage facility will help us store surplus heat from the summer for the winter.

**SAFE**

In order for EVERYONE to reach their destinations safely, we need a comprehensive and safe cycling infrastructure. This will support school students in particular, who will then be able to cycle to school safely.

**FAIRER**

Our goal is to continuously and rapidly increase the number of childcare places in the under-3 and over-3 age groups. And we want to do this while maintaining the consistently high standards of quality that we have in Kassel. Because every child has the right to a childcare place, and every school student has the right to a good education - regardless of their background or the district in which they live.

**FORWARD**

In order to strengthen our economic hub in Kassel, we need cross-industry cooperation for climate protection. Together we can position ourselves well for the future - and that means protecting our climate both now and in the future. Only those who prioritise this will succeed!

**LIVELIER**

We are working for a city that is attractive, just and innovative: with a plan for Kassel city centre that will allow it to become one again, giving it back to the pedestrians and making the river Fulda more accessible. The overall quality of life in Kassel's different individual neighbourhoods will be enhanced by the strengthening of their centres. This will benefit both the residents and the businesses that are based there in equal measures.
